### FINAL SITE INSPECTION REPORT, SIERRA ARMY DEPOT, HERLONG, CALIFORNIA

Dear Ms. Chong:

Thank you for your submittal of the above referenced final report. The report details the results of the Military Munitions Response Program (MMRP) site inspection activities conducted at Sierra Army Depot. (The MMRP Program was established by the Department of Defense to address non-operational ranges suspected or known to contain munitions and explosives of concern and munitions constituents).

In summary, the Site Inspection Report identified the following:

- 2 Sites requiring No Further Action: Block C and Rifle Range D.
- 6 Sites requiring Further Action: .50 Caliber Firing Range, 1960 Demolition Area, Hazard Classification Test Site, Honey Lake Demolition Range C, Alpha Team Training Area and Lower Burning Ground.

Based on a review of the site inspection results provided in the document, DTSC concurs with the findings presented in the final site inspection report.

To ensure continued progress for the MMRP at Sierra, we would like to schedule the

Ms. Young Chong

follow-on work for the six further action sites. If you should have any questions regarding this letter, please contact Ms. Francesca D'Onofrio at 916-255-3603 or [FDonofri@dtsc.ca.gov](mailto:FDonofri@dtsc.ca.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Anthony J. Landis". The signature is fluid and cursive, with a long horizontal stroke at the end.

Anthony J. Landis, P.E.
